Education

University of New South Wales

Feb 2019 - Dec 2022

Bachelor of Commerce (Finance/Information Systems)

WAM: Distinction

Sydney Boys High School

Jan 2013 - Sep 2018

ATAR: 96.15

- Prefect: House Captain (2018)

Professional Experience

Software Engineer

Jul 2024 - Present

World Sport Action

- Architect and build OAuth-based Google & Microsoft calendar sync via burst-tolerant, queue-backed worker pipelines running on AWS Lambda, processing ~10,000 events/day.
- Lead the rollout for an in-product audit log feature, championing a phased, platform-wide implementation of the middleware-based framework within the engineering team.
- Own and deliver the React front-end for a greenfield evaluations module, leveraging RTK Query for API integrations.
- Improve API latency by 2-8x across critical paths by refactoring inefficient TypeORM patterns and backend processing bottlenecks.
- Build S3-backed media storage pipelines with direct uploads, validations, and async processing.

Associate Product Manager

May 2023 - Jul 2024

Mercu

- Lead the development and launch of the automations, email, and data reporting product.
- Own the 2nd iteration of Mercu's recruitment product alongside a 5-person engineering and design team.
- Manage the end-to-end process of obtaining SOC 2 certification with both internal and external stakeholders.
- Create Retool dashboards and extract data using complex SQL queries for a feature MVP and to run ad hoc analysis.
- Document and publish weekly changelogs and release notes.

Strategy Associate, Performance & Planning

Jan 2022 - May 2023

MILKRUN

- Create forecast models to optimise and proactively control unit economics through UTR, with a 95% WoW accuracy
- Coordinated the launch of MILKRUN's motor fleet through fleet sourcing, hiring and roster structure remodeling
- Develop workforce hiring models to sustain a flexible and reliable roster to adapt to changing business targets
- Build SQL queries to prepare and present weekly reporting data to the business operations group

Growth Operations Coordinator, Performance & Planning

Oct 2021 - Jan 2022

MILKRUN

- Establish, iterate, and deliver the rider and hub onboarding program to cultivate MILKRUN's unique culture and drive rider growth by 700+ new hires over 10 months
- Create operations SOP documentation and automate workflows through the implementation of Google Apps Script
- Design the onboarding strategy and roadmap to support the business' Melbourne expansion launch

Management Consulting - Public Policy and Economics (Secondment)

Nov 2020 - Oct 2021

[add: External Audit & Assurance Cadet]

PwC Australia

- Performed grant re-profiling of the Working for Victoria scheme to reduce \$14MM+ in state treasury funding
- Liaise with 71 councils, CSOs and social enterprises to accelerate grant re-profiling opportunities
- Prepare and brief contract agreement documentation to facilitate legal grant variations
- Deliver financial and business process assurance services to clientele in the consumer and industrial products sector

Leadership and Activities

Co-President

Oct 2020 - Dec 2021

[former: Education Director 2020, Camp Leader 2020, Education Subcommittee 2019]

UNSW Business Society

- Liaise with corporate partners and the UNSW Business School to maintain relationships and deliver quality professional and academic enhancement events for 12,000+ business students
- Represent the UG student body, sitting on the Education Committee and UNSW Community Engagement Committee
- Manage the recruitment and strategic objectives of 34 board of directors and 65+ committee members
